H. L. JUDD COMPANY, Inc.

NEW YORK, N. Y.

A Century-Plus Corporation

FOUNDED by Morton Judd of New Britain, Conn., in 1817. Small Machine Shop and Foundry.

Under the direction of Mr. Judd the business grew and in 1862 moved to New Haven, Conn. Name changed to Judd Manufacturing Company.

In 1870 H. L. Judd, oldest son of Morton Judd, opened store in New York City.

In 1875 the New Haven plant was moved to Wallingford, Conn.

In 1876 factory was started in Brooklyn, N. Y.

In 1879 H. L. Judd took in a partner, Mr. John Day, and business was conducted as H. L. Judd & Company.

In 1880 a wood-turning factory was started in Chattanooga to produce Wood Curtain Poles and Fixtures.

In 1884 business was incorporated as H. L. Judd & Company.

In 1895 the Brooklyn plant was moved to Wallingford, Conn., and the Wallingford factory greatly enlarged to take care of a growing business.

In 1900 the Company was incorporated as H. L. Judd Company.

In 1922 the Company was incorporated as H. L. Judd Company, Inc., a Delaware Corporation.

In 1928 a factory was started in Los Angeles, Cal., manufacturing Artistic Wrought Iron Drapery Hardware and Art Metal Goods.

The Company is now producing Drapery Hardware, Carpet Hardware, Stationery Hardware to meet the requirements of the small Cottage or the most expensive Mansion; also numerous items which find a ready sale in the Chain Stores and a beautiful assortment of Art Metal Goods.

New York Office has been located on Chambers Street since 1870, and the Company has occupied the present building, which they own, at 87 Chambers Street, for over forty-five years.

The product of the Judd factories is sold in nearly every State in the United States, every Province in Canada. It is also to be found in many Foreign Countries.

Mr. John Day, the active President of the Company at this time, first associated himself with Mr. H. L. Judd in 1870, becoming a Partner in 1879 and since 1900 has been President and Active Manager of the business.

TRADE MARKS

All numbers, letters and fanciful or non-descriptive names, originally and arbitrarily applied by us to articles of Hardware for the purpose of identifying the goods as our manufacture, are our Trade Marks.

These Trade Marks have been acquired by us by arbitrary adoption and use, by due advertising and by the general acquiescence of the trade.

We caution all persons against using any of our Trade Marks (numbers, names, etc.), except when used for the purpose of indicating that the goods with which they are associated were manufactured by us.

FRENCH HEADING RING

Sides of Ring can be readily separated so that they can be sewn to draperies and rapidly hooked together over the Pole. A projection at top of Ring hooking into slot in conjunction with the Thumb Screw holds the parts rigidly in alignment. A great convenience and time saver. Rollers reduce friction to a minimum.

McCabe Curtain Traverse Equipment

INDISPENSABLE FOR THEATRE CURTAINS AND OTHER LARGE HEAVY CURTAINS

INDISPENSABLE FOR THEATRE CURTAINS AND OTHER LARGE HEAVY CURTAINS

Used in the leading playhouses, motion picture theatres and school buildings throughout the country.

Track is of 13 gauge steel. Carriers are ball-bearing and have hard fibre wheels. The felt buffer in the single wheel carrier prevents noise as the carriers come together when curtain is drawn. Pulleys are malleable castings with machine turned grooves, and have double ball-bearings. Use standard sash cord.

The track should lap in the center of the opening from one to three feet. The track may be supported on the side wall by brackets Nos. 230/104 and No. 10 or supported on wooden or iron header with brackets Nos. 16 or 8C.

Bolt double pulley No. 59 on end of one track and at the opposite end of the other single pulley No. 61 over which an endless cord passes. We supply floor pulley No. 62 but a cheaper pulley can be used if desired.

Do not try to form the folds of the curtain with the carriers. It is better to arrange the folds as desired, and bind the top with canvas or leather strips, and place the carriers on this binding about 15 inches apart. The end and center carriers on each curtain should be double carriers. No. 58 Harness snap hooks are used to fasten curtain to rings of carriers.

Track can be curved (if operated by hand instead of cord) to radius not less than 18 inches at advanced cost.

*Day's Roller Bearing Shower Curtain Hooks

It's the rollers that enable the curtain to move so easily. No more obstinate, sticking curtains when these hooks are used. The slightest touch and the curtains glide along. A big improvement over the old style plain rings which bunch together and cause the grommets to rip out when curtains are pulled. All brass, heavily nickel plated or chromium plated.

For Curtains for Shower Baths, Beauty Parlors, Kitchenettes or any curtains with grommets at top.

Closet Garment Rods

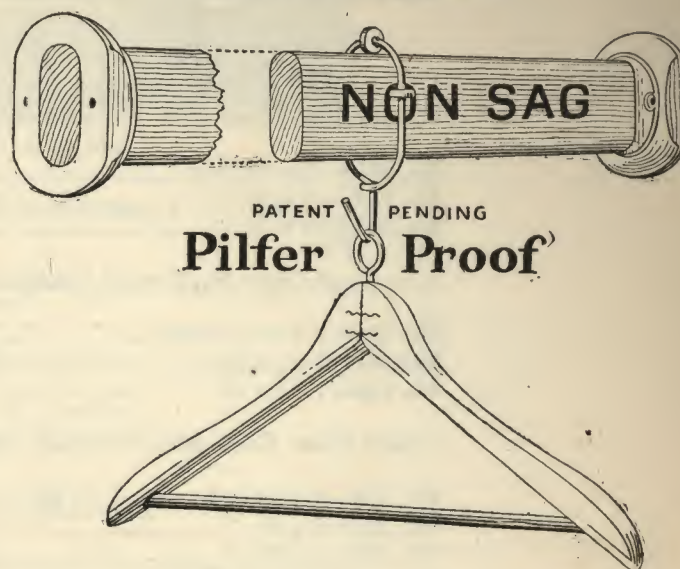

Here is a sturdy garment bracket that fits on the inside of the closet door. The moment the door is opened the garments are within easy reach, neatly arranged on hangers. Everyone who values well-kept clothes needs one of these convenient brackets.

No. 2841—Nickel Plated Steel. Wire 1/4 inch diameter.

Length, 8 inches.....Per gross, \$17.00

Packed 1 dozen to box. Packed 4 gross to fibre case.

Improved Closet Rods Pilfer Proof

For Hotels, Apartments, Homes, Clubs, Check-rooms, etc. Rods are of yellow pine 1 1/8 x 2 1/2 inches, extra smooth finish. Being held on edge they will not sag like the old style wood rods.

Wood sockets 3 3/8 x 3 inches.

Day's Roller Bearing Rings move silently with the slightest touch. They are tinned bright to prevent rust.

No. 2840—Standard Garment Hangers with large eye are quick and easy to use.

PILFER PROOF

The Roller Bearing Hooks cannot be removed from rod, therefore pilfer proof. And the hangers are useless without the hooks.
